Business needs

3A Entertainment promote the WWE (World Wrestling Entertainment) shows. The Events are transmitted live back to the United States to approximately 5 million viewers per show.

3A approached Brentwood Communications as they required a reliable radio system for communications throughout the two WWE UK Venues at the O2 Arena London and the MEN arena in Manchester. The system is required twice a year with an engineer on site for the entire 3 to 4 day event.

Environment: O2 Arena

Up to 23,000 spectators and M.E.N. indoor arena with up to 19,000 spectators.

Noise Levels: High

High levels of noise from fans.

Users:

There are over 140 staff members using the Radio System with many groups including Security, Stewards, Management and Facilities.

Tottenham Management said:

"It has been a pleasure to work with Brentwood Communications, the staff have been very helpful and we are delighted with the system".

GP688

Our best selling solution for events & stadia Security.

About Brentwood Communications

- Est 1973
- 3 Offices in UK
- ISO9001:2000 certified
- Nationwide Coverage
- Complete radio & CCTV solutions

System Benefits

- 100% coverage throughout the Arenas and surrounding areas
- Rugged and Reliable Hand Portable Radios
- Separate Channel for each Department
- Noise Cancelling Headsets and Earpieces to reduce background noise

Solution overview

Brentwood Communications considered everything that 3A Entertainment's management team required and designed a solution using 50 Motorola GP340 Hand Portable Radios which are programmed to their Talk Through Repeater Base Stations which enable coverage throughout the arenas.

All equipment is prepared, tested and programmed by our engineers before delivery and set up on site. Our On Site engineer checks all the Hire equipment with 3A Entertainment Management, chargers and equipment are set up and the radios are then allocated to personnel.

Spare Batteries are supplied so if battery power runs low there are always plenty charged and ready to go.

To combat the noise in the arenas Brentwood Communications supply Heavy Duty Noise Cancelling Headsets along with covert earpieces (which reduce background noise) and Remote Speaker Microphones.
